Director's Corner

Autumn is a season that invites us to slow down and appreciate life's simple pleasures. For many of us, the crisp air, colorful leaves, and comfortable temperatures provide the perfect opportunity

to enjoy outdoor activities without the heat of summer. Whether it's taking a leisurely walk through Washington Park, a bike ride through the country, visiting a farmers market, or simply sitting on the porch with a warm cup of tea, autumn offers countless ways to stay active and connected with nature.

The season's beauty also serves as a reminder to cherish special moments with family and friends as the year gradually winds down.

Autumn is also a wonderful time for reflection and gratitude. As trees shed their leaves and prepare for winter, many of us find ourselves looking back on treasured memories and the experiences that have shaped our lives. Seasonal traditions such as apple picking, holiday gatherings, and home-cooked comfort foods can bring a sense of joy and nostalgia. At the same time, cooler weather encourages hobbies like reading, crafting, gardening, and volunteering, helping us stay engaged and fulfilled. With its rich colors, peaceful atmosphere, and spirit of thankfulness, autumn remains one of the most cherished seasons of the year. I hope you take the time to stop and smell the pumpkin pies! **Happy Halloween! Tara**

The Naughty List!

Continuing each month: you're on the naughty list if you haven't had your picture taken. How do you know? You have an asterisk next to your name in your birthday month. It's so easy, just stop at the front desk and let them know you need to get your picture taken for the database. They'll walk you through it! Thanks!

Use it or Lose It

New research on the human brain shows that the brain responds well to the right kind of stimuli (both mental and physical activity). In each issue of the Golden Times (space permitting), I'm going to be sharing some exercises for your brain. I'll also give some tips I encourage you to incorporate them into your daily life and let's keep ourselves as active & healthy as we can!

Draw a Tea Cup

Sketching an object is an excellent way to sharpen the visual sense. If you sometimes

say, I can't draw a straight line," take courage because this is easy. Set a

tea cup in front of you. Observe it carefully. The purpose of this exercise is not to see how well you can duplicate the image of the tea cup but to sharpen your ability to see. The goal is to draw what you see, but more importantly, to learn to REALLY SEE what you are looking at.

As you may have noted, "modern artists" don't always draw something exactly as it looks to us. Draw your own version of a tea cup. Remember that the cells in your brain are happy for your efforts.
